

Make a crystal fox mask

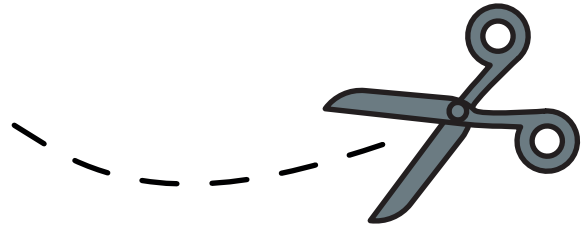

Make sure you get the help of a grown-up!

1

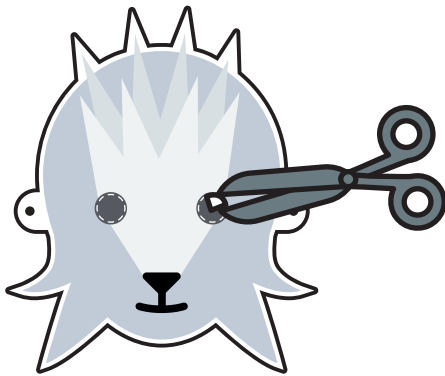

Print out the template below.

2

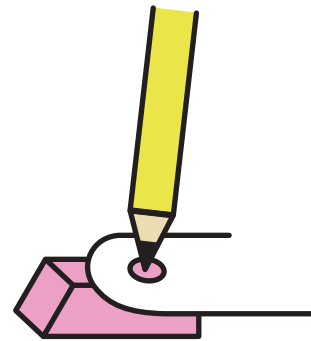

Cut out along the dotted lines with a grown-up.

3

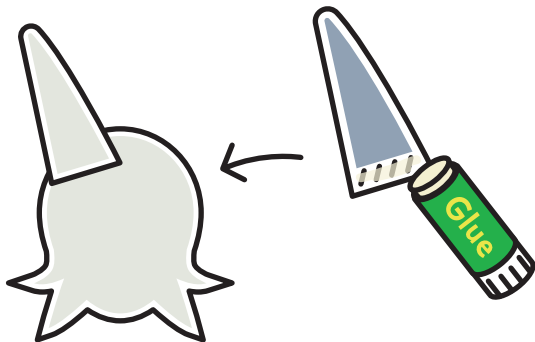

To cut holes for the eyes, make a small snip first to help your scissors.

4

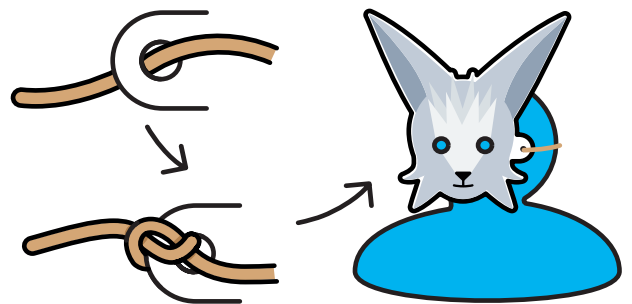

Using a pencil, carefully pierce a hole in the marks. Put a rubber on the other side so you don't damage anything!

5

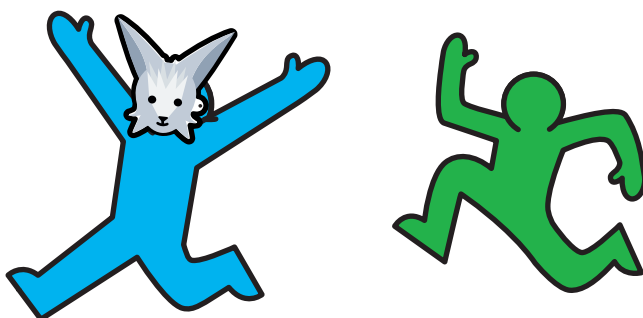

Attach the ears onto the head by gluing the area with stripy lines then sticking the ears to the back of the mask.

6

Tie a length of string or elastic through both holes. Put it over your head to measure out the right size.

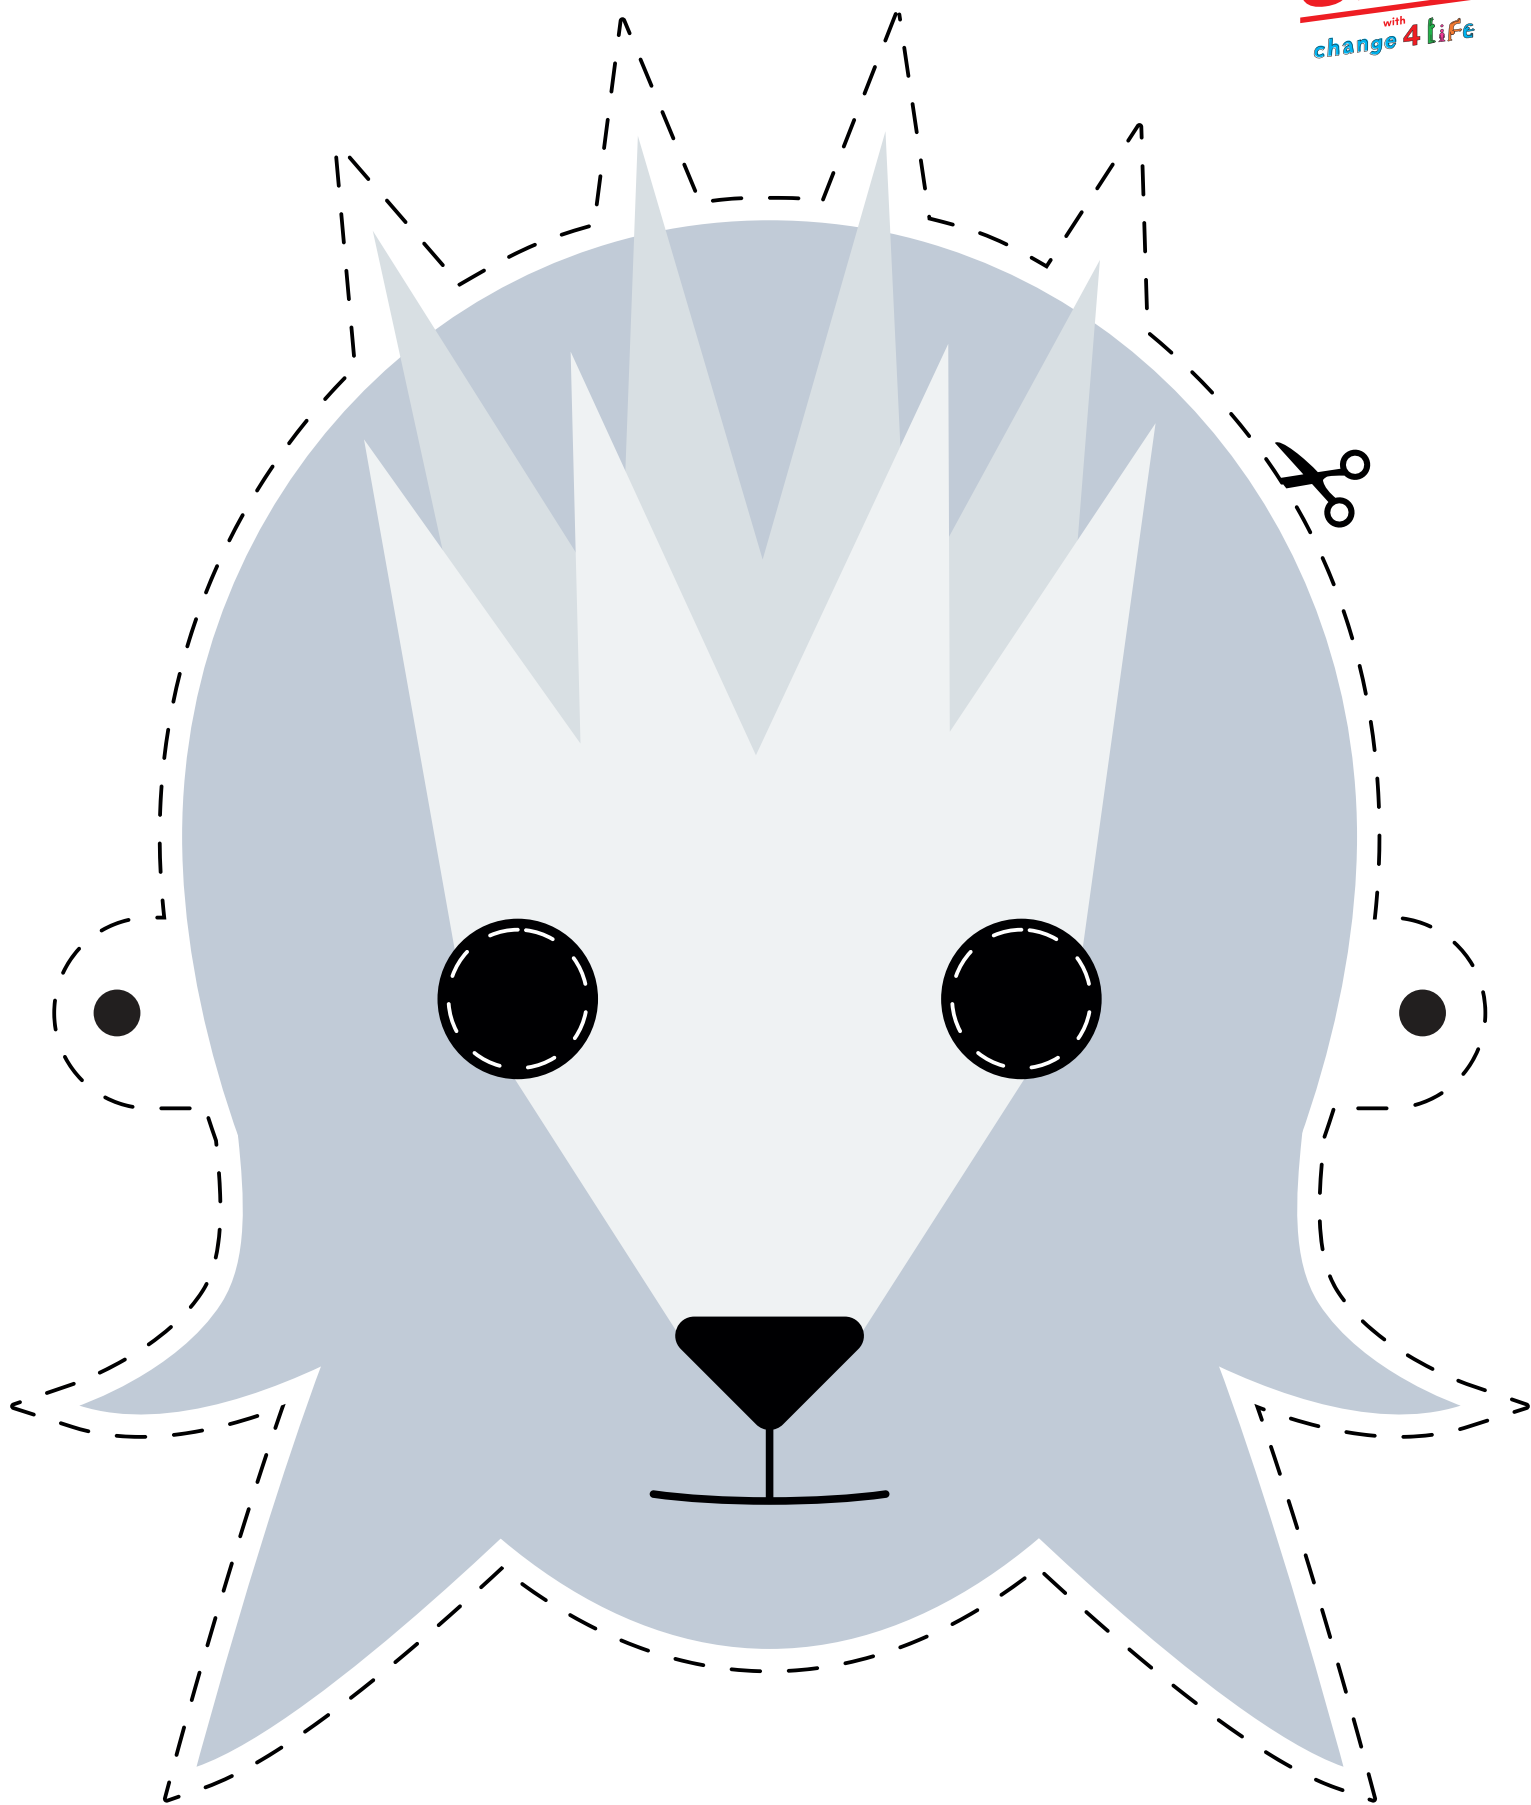

7

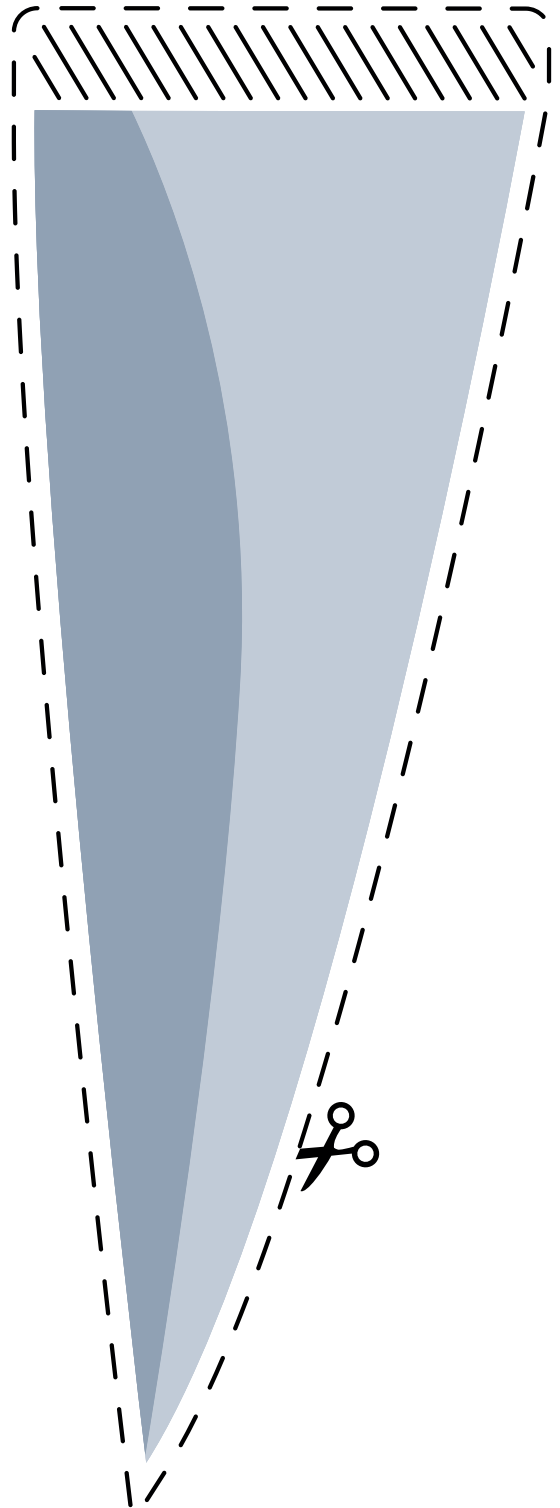

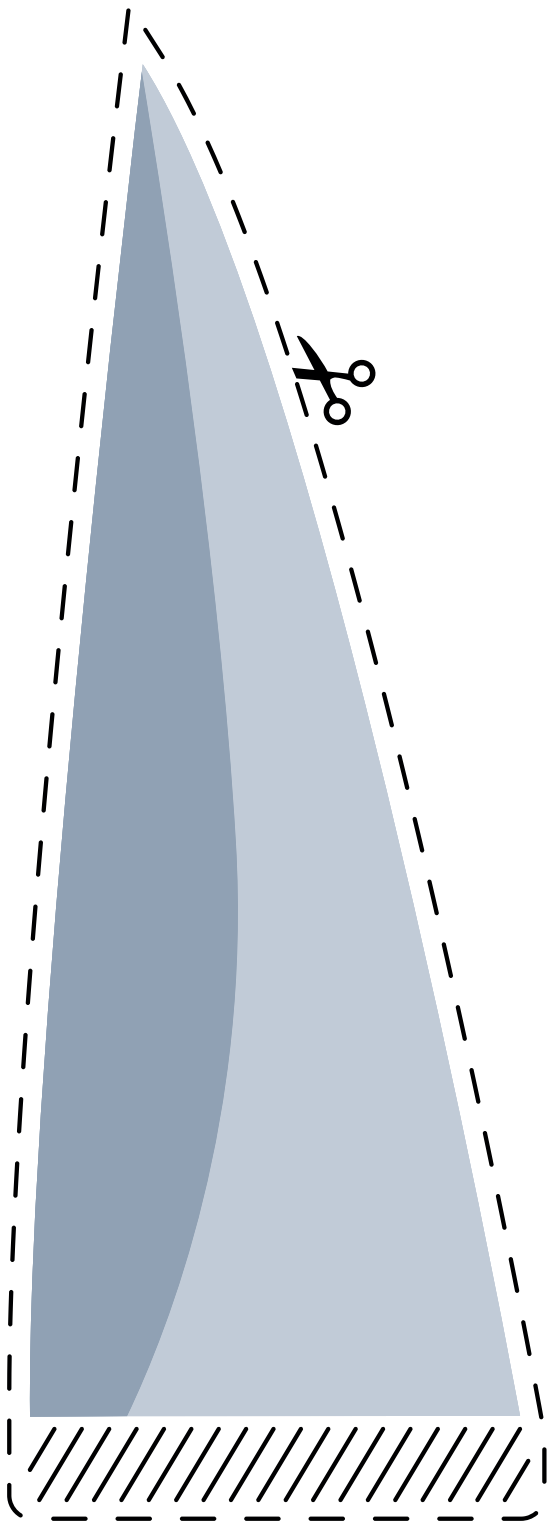

Play to see who can catch the crystal fox on Crait!
